### Pricing Information

This table displays the pricing for the MIS service You have selected. The Local Access pricing does not include any local access special construction, special build-out costs or any other Local Access costs that may be incurred by AT&T in connection with the installation of the local access loop. Such costs will be the sole responsibility of the customer. You must indicate that You understand and accept this pricing by clicking on the "continue" button above. Any changes, additions or deletions to the products, services, quantities, or term of the selected arrangement may result in changes to the pricing set forth above. For example, additional charges will apply if You choose to move Your MIS service to a new location.

### Sustained Bandwidth Ranges

T1.5 - Burstable provides full T1 dedicated access as needed, but you pay based only for your actual bandwidth usage per month, not the full line rate. See the [AT&T MIS Service Guide](#) for additional details.

[back to top](#)**Important Router Information**

Certain customer premises equipment, including a router, is required for MIS Service. You may choose to have AT&T provide the router or you may choose to obtain a router elsewhere. If you choose to have AT&T provide the router, additional charges will apply. Please see the Pricing Information page for details. If you choose to obtain your router elsewhere, AT&T will not manage Your router. The router will not be billed or provided pursuant to this Agreement and AT&T will not be responsible for the availability of the router. You will be responsible for providing, installing, configuring, maintaining and managing all of Your premises equipment. Think carefully about your decision. Purchase, configuration, and maintenance of your equipment will require individuals with considerable technical expertise. You will not be able to use Your MIS Service if Your router is unavailable.

[back to top](#)**Important Local Access Information**

Local Access is the connection between the customer premises and the nearest AT&T point of presence (POP) and is required for MIS Service. You may choose to have AT&T provide the Local Access or you may choose to have the Local Access provided by another carrier. Use of the AT&T provided Local Access under this Agreement is restricted to AT&T MIS only. If you choose to have AT&T provide the Local Access, additional charges will apply. Please see the Pricing Information page for details. If you choose to have another carrier provide the Local Access, AT&T will not manage Your Local Access. Your Local Access will not be billed or provided pursuant to this Agreement and AT&T will not be responsible for the availability of the Local Access. You will not be able to use Your MIS Service if Your Local Access is unavailable.
